Alcohol & Addiction Treatment

2024 Annual
IMPACT
Report

Year in Review

Fellowship Hall has long been a beacon of hope, guiding individuals toward freedom from substance use disorders and the promise of lasting recovery. Rooted in the proven twelve-step philosophy and strengthened by evidence-based practices, our treatment program delivers high-quality, compassionate care. In a welcoming and supportive environment, every individual is met with dignity, respect, and the encouragement needed to heal and thrive.

In our ongoing commitment to making treatment accessible, we have expanded our services to meet people where they are in their recovery journeys. In 2024, we launched an evening virtual Intensive Outpatient Program (IOP) to complement our existing in-person options, as well as a Partial Hospitalization Program (PHP) to offer a higher level of outpatient care. These additions have allowed us to serve more individuals and provide treatment solutions that fit diverse needs. Additionally, our new digital marketing efforts have increased awareness of the quality services we provide, ensuring that more people in need can find their way to treatment at Fellowship Hall. This growth in reach allows us to create a lasting impact and offer even more opportunities for those seeking a better future.

While we fell short of our financial goals in 2024, we have begun to see the positive impact of the changes we've made, and we are optimistic about continuing our upward trajectory into the coming year and beyond. Our efforts to adapt and innovate are already positioning us for success, and we remain focused on the long-term vision of expanding our capacity to serve and support our community.

As we look to the future, our strategic vision remains focused on growth, innovation in treatment, and an unwavering commitment to our mission. Our dedication to expanding access to care, staying at the forefront of treatment advancements, and fostering a culture of compassion drives everything we do. None of this would be possible without your continued trust and support. Thank you for standing with us as we work together to change lives and strengthen our community.

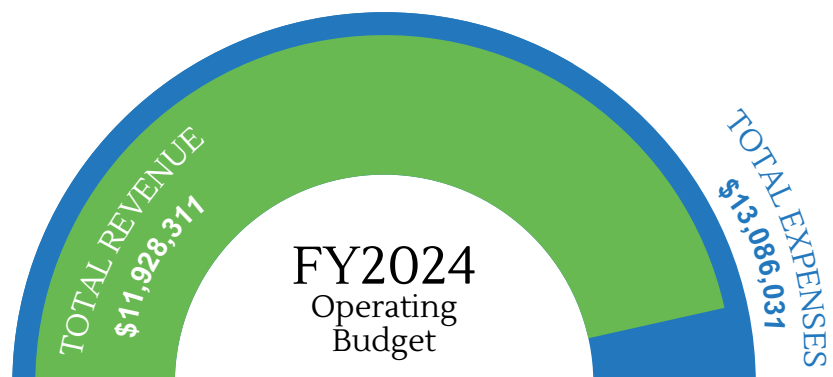

Respectfully,

Kelly Scaggs, MHA, LCSW, LCAS,
CCS, MAC, ICAADC
President & CEO, Fellowship Hall

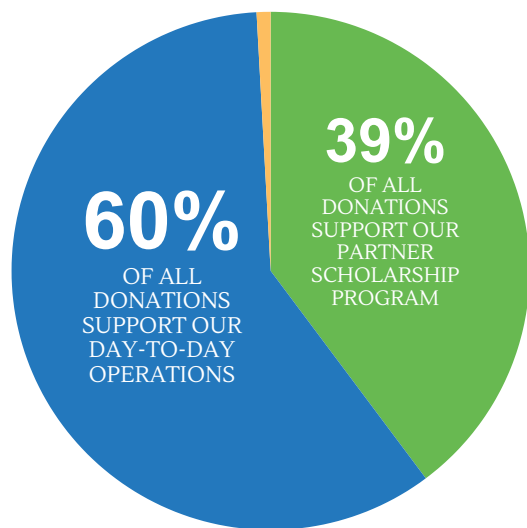

FY24 Financials

While we did not meet our financial goals in 2024, the strategic changes we implemented have already begun to yield positive results. We are encouraged by the progress we've made and remain confident in our path forward. As we continue adapting and innovating, we are positioning ourselves for long-term growth, ensuring we can expand our capacity.

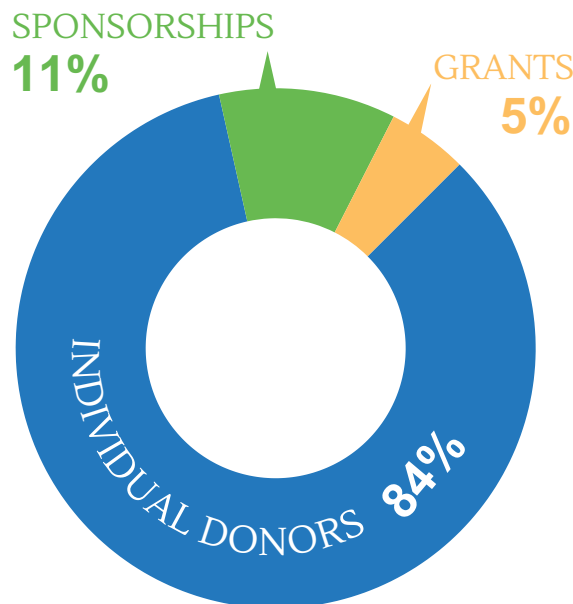

Impact

DONATIONS & GRANTS

Each year, Fellowship Hall asks for community support to help us bridge the gap between the costs of providing substance use treatment and the income we receive for providing treatment services. Individual donors, foundations, and corporations have a variety of ways to contribute. Our Annual Fund drive supports day-to-day operations, while our special events—including the Lights of Hope, Walk & Run for Recovery, and the E. Raymond Alexander, Jr. Memorial Golf Tournament—provide support for our Partner Scholarship Program, ensuring more individuals have access to treatment. Donors may also elect to support the Family Program, which helps family members learn how to best support their loved one in treatment, or the Financial Assistance Fund, which provides critical aid to guests facing financial challenges so they can complete their treatment program. Your generosity makes a real difference in the lives of those seeking recovery.

DONATION SOURCES

28
INDIVIDUALS

received financial support from Fellowship Hall to access treatment.

“Without a scholarship, I’m not sure I would have ever found the help I needed.”

Our Continuing Care Program is designed to monitor the progress of our graduates following discharge from our residential treatment program. Through regular check-ins, beginning one day after discharge and continuing for up to one year, our dedicated Alumni Coordinator ensures that each individual receives ongoing support. The outcomes achieved through our treatment program have been exemplary, underscoring the effectiveness of our comprehensive care approach.

I am happy with my life and am making good progress on my recovery journey:

95%
of Guests

Outcomes at one year post-treatment:

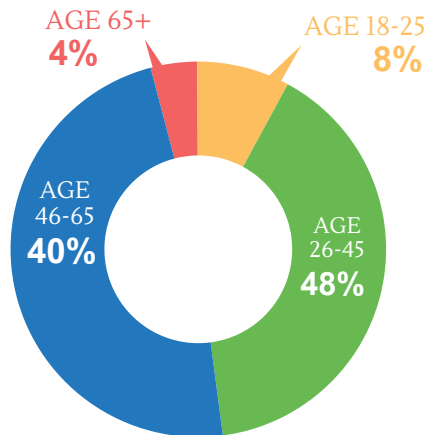

92% say their life is better since treatment.

66% remained completely abstinent since treatment.

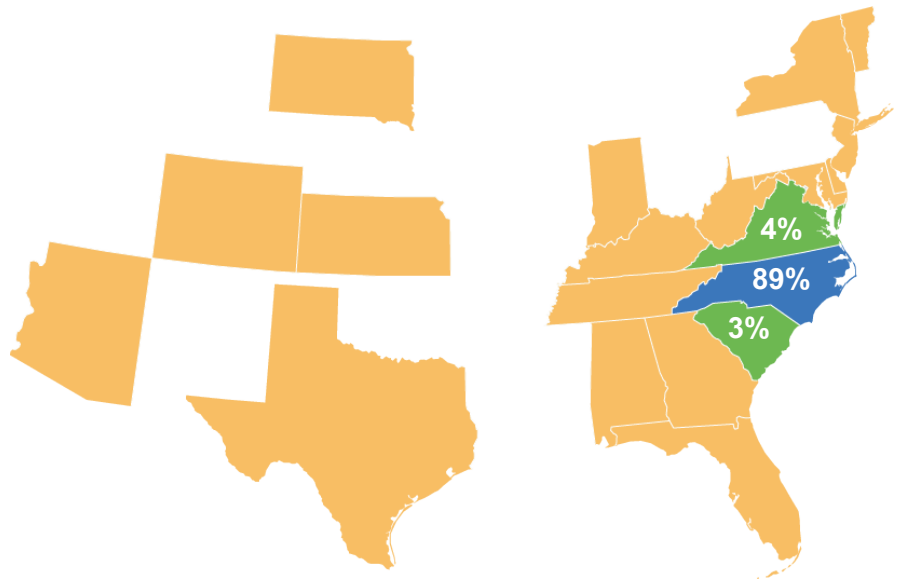

81% reported being employed full-time.
